[redacted] the Damm airfield [redacted] been occupied  
by about 250 troops on 1 November. [redacted]

50X1-HUM

The present report gives no indication of the number of troops stationed at the airfield in mid-November. The 250 troops previously observed were probably due for discharge. The departure of Soviet dependents from Justerbog was also observed in late October 1950.

[redacted] the Fuchsberg  
Kaserne and the installation on Kapollenberg are occupied primarily by elements of the 14th Gds Mecz Div. It is impossible to determine whether elements of the 6th Gds Tank Div are also stationed in these two installations [redacted]

50X1-HUM

[redacted] The statement in paragraph 2 that a unit of the 6th Gds Tank Div moved from Camp Jerder to Justerbog-Altes Lager fairly definitely implies that elements of this division are at least quartered in Justerbog-Altes Lager.
